Bangalore City:

Reference Government Proceedings No. ... Muz/
201-11.1 dated 11th June 1917 in the matter of the
construction of a Musjid in the New Peramboot:

Humbly Showeth:-

Your Memorialists beg to submit that certification 3 of para 5 of the abovesaid proceedings to the effect that a substantial stone slab with a suitable inscription in Kannada and Hindustani should be built into the wall of the Musjid at a conspicuous position is not agreeable to your Memorialists and other inhabitants of the City of Bangalore and abroad; Your Memorialists in common with other Mussulmans think that to have a slab put in as ordered would surely be a mark of dishonour to the whole community. It may be stated that not to speak of Mussulmans ... shocked at this novel suggestion no community anywhere in Mysore and in India is subjected to it is ... and no place of worship, whether a Musjid, Temple or Church is treated in this manner as in the estimation of Mussulmans is considered to be odious to their national honor. Further Your Memorialists think that

the putting in of a stone slab with the proposed conditions inscribed therein into the wall of the Musjid is incompatible with the sanctity of a place of worship.

They therefore humbly pray that the Government will be gracious enough to expunge this item of the condition from the order and thus place all the Mussalmans under their deep obligation.

It is needless for your memorialists to mention here that they are, as agreed before, quite prepared to execute a Murchalika conforming themselves to faithfully abide by all the conditions imposed by the Government.

Your humble memorialists beg to

the subject of 23rd July 1918.

As there are reasons to think that the inscription of these restrictive conditions on a stone slab to be let into a prominent position of the mosque is felt to be derogatory to the sacred character of the building the Government are pleased to modify to this extent their order of the 11th June 1917. But the year of construction should be projected in bold characters in Urdu & Nagri over the main entrance to the building. A memorial tablet signed by as large a number of leading mussulmans interested in the mosque as possible bearing themselves to all the other conditions specified in the order referred above, should be obtained and inserted in the Deputy Commissioner before starting the work of reconstruction.

Proceedings B 174

Extract from the speech delivered by the Hon. Mr. Gillman in the Madras Legislative Council and published in New India dated 8th April 1918.

" . . . . . The Hon. Mr. Ahmed Thambi Marakayar had raised the great question of Hindu-Muslim disturbances and put forward the proposition that the thing should be finally settled by an order and that an order should issue throughout the whole of India that music should be stopped in front of all mosques. That was an ultra Muhammadan way of looking at the thing, and he did not think that the Hindu-Muslim community would like such an order. That was a thing in which custom must prevail, and custom differed in every town in the Presidency, and the great obligation was to ascertain what the custom was with regard to each place. Where there was a longstanding dispute in which the leaders of the two communities could help the authorities, they could come to an amicable understanding. . . . . "

Extract from the address proposed to be presented by Mr. Mahomed Abbas Khan, Central Mahomedan Association, Bangalore

---

"One more point, Sir, we want to invite your attention to. In the construction, improvement and enlargement of our places of worship we are subjected to irksome and harrassing restrictions This is a constant source of irritation to our community which tends to mar the good relations between them and our fellow-country men. The"Bakrid Riots" are fortunately rare in our Province, but the possibility of their occurrence cannot be ignored. It is a disgrace, Sir, to educated India that in these days of Hindu-Muslim unity the two perpetual sources of friction and discard should be permitted to exist. Let us then take the lead, as we have done in several other matters, to settle these vexed questions in a spirit of amity and neighbourly love and we pray you Sir, that under the auspices of His Highness' Government a Committee of leading Hindus and Mussalmans be appointed to discuss and set at rest these dicinte rating forces which hinder the cause of the Indian Nationality."

File No. of 191

Serial No.

The reference is to certain alleged irksome and harassing restrictions in the construction, improvement and enlargement of Mahommedan places of worship and it is prayed that a Committee of leading Hindus and Mahommedans may be appointed ~~at~~ to discuss and set at rest the conflicting interests. The restrictions are not confined to Mahommedan places of worship alone but to all ~~pla~~ buildings intended to be used as places of worship by any class of community and it is directed that such buildings should not be erected in any public street or thoroughfare in any town or village without the previous sanction of the District Officer in each case and that the old order forbidding the use of music by religious processions when passing a place of worship of another procession will not be held applicable in the case of any building of the nature under advertance (Chief Commissioner's circular No. 2529 79 dated 22 August 1871) The restrictions such as these are conceived in the interests of public peace so as to prevent as far as possible conflicts between the various communities. The Mahommedans particularly may claim to stoppage of music in the case of processions passing their places of worship and also to removal of their dead inside prayer buildings for burial service The latter is abhoxious to the Hindu dwellers in the

NOTE—Contn sheet.

Serial No.

While a new claim to stop music near new places of worship is an irksome interference with the old and mamul right of the other communities to go themselves or take their deities in procession with music. If these claims are dropped there would no longer be any reason for retention of the restrictions complained against. It is, however, doubtful how far the labours of a joint committee now prayed for will be fruitful of useful results as danger to ~~public~~ public peace never arises from these. The ranks of either community who are easily swayed by emotion are the prolific source of such disturbance and it would be a long time before they can be brought to take an enlightened view on such matters. Until then it is to be feared that restrictions of sorts will have to exist in the interests of the communities themselves.
